

## Part 5 – Cambrian explosion

Watch the video (30<sup>th</sup> ->46<sup>th</sup> min) and answer the questions below.

- 1) Why were living species able to survive during ice age?
- 2) What did happen during the Cambrian explosion?
- 3) Why were some living species able to migrate from the ocean to the continents in spite of the lethal radiations coming from the Sun?
- 4) What is the origin of coal? the origin of oil?

### Key words and scientific knowledge:

Skeleton  
Ozone layer  
shield  
lethal  
coal  
oil
